

## ESG & Sustainable Procurement Assessment™ Overview

The **ESG & Sustainable Procurement Assessment™** is a diagnostic tool designed for experienced procurement leaders to benchmark, identify gaps, and accelerate sustainable transformation. It provides a structured, insight-driven evaluation of how effectively your procurement function integrates environmental, social, and governance (ESG) principles into sourcing and supplier management. Built with senior procurement professionals in mind, this assessment goes beyond surface-level sustainability checks. It diagnoses operational maturity, strategic alignment, and readiness for increasing regulatory and stakeholder pressure.

### How It Works

- 40 targeted questions across 5 critical areas
- Takes approximately 8–10 minutes to complete
- Multiple-choice format designed to assess maturity levels
- Instant insight into strengths, gaps, and priorities

### What You Get

- A clear view of your current ESG procurement maturity
- Identification of key risk areas and improvement opportunities
- A foundation for building a more resilient, transparent, and sustainable supply base

### Assessment Framework

The **ESG & Sustainable Procurement Assessment™** diagnostic includes **40 targeted questions** across five critical areas:

1. **ESG Integration in Sourcing (8 Questions)**  
Evaluate how ESG criteria are embedded into sourcing strategies, RFPs, supplier selection, and commercial decision-making
2. **Supplier Sustainability Tracking (8 Questions)**  
Assess your ability to measure, monitor, and improve supplier ESG performance across tiers
3. **Scope 3 Readiness (8 Questions)**  
Understand your preparedness to measure and manage indirect emissions across your supply chain—often the largest and most complex part of your carbon footprint
4. **Regulatory Preparedness (8 Questions)**  
Benchmark your readiness for evolving ESG regulations, reporting requirements, and compliance frameworks
5. **Sustainable Procurement Governance (8 Questions)**  
Examine leadership alignment, policies, accountability structures, and internal capabilities that enable sustainable procurement at scale

## Why It Matters

It diagnoses operational maturity, strategic alignment, and readiness for increasing regulatory and stakeholder pressure. This assessment helps you understand where you stand, and what to do next.

## Who It's For

- Chief Procurement Officers (CPOs)
- Procurement Directors & Heads of Category
- ESG, Sustainability, and Responsible Sourcing Leaders

## Maximise Your Results

To get the most value from the assessment, answer each question honestly and avoid “sugar-coated” responses. The more accurate your input, the more meaningful and actionable your results will be.
